

How **iorys.com** Enabled Integration with **IBAN.com** to Streamline

IBAN Verification
for Payment
Processing

About iorys

iorys.com is at the forefront of IT solutions for the fintech and online banking sectors, specializing in comprehensive services that include payment hubs, front office, back office, ledgers, and compliance modules. Our mission is to simplify and enhance the operational capabilities of our clients through seamless and efficient API integrations.

> Overview of the IBAN.com API Integration

The IBAN.com API provides a crucial service for fintechs and online banks: the ability to verify International Bank Account Numbers (IBANs) swiftly and accurately. This integration is essential for ensuring the reliability and security of cross-border payments and financial transactions.

> Problem Statement

In the complex landscape of international finance, verifying the accuracy of IBANs presents a significant challenge. Incorrect or fraudulent IBANs can lead to failed transactions, financial losses, and diminished trust. Fintechs and online banks require a reliable method to check IBANs efficiently as part of their payment processing workflow.

> Integration Solution

iorys.com has seamlessly integrated the IBAN.com API to offer our clients a robust solution for IBAN verification. This integration automates the verification process, significantly reducing the risk of errors and fraud in international transactions. Our implementation ensures that IBAN checks are conducted in real-time, providing instant feedback and validation.

> **Benefits and Features**

- Real-time IBAN verification: Ensure accuracy and security in payment processing.
- Reduced transaction failures: Minimize financial losses and operational disruptions.
- Enhanced trust and reliability: Build confidence among customers and partners.
- Seamless integration: Easily incorporate into existing fintech and banking platforms.

> **Case Studies or Use Cases**

A fintech company specializing in international remittances utilized our IBAN.com integration to streamline their payment process. The result was a 40% reduction in transaction failures and a noticeable improvement in customer satisfaction.

> **Getting Started**

Clients can start using the IBAN.com integration by contacting our support team for setup instructions. The process involves configuring the API settings within their iorys.com account and incorporating the verification step into their transaction workflow.

> Support and Resources

For further assistance, our clients can reach out to our dedicated support team or consult the comprehensive documentation available on our website. Additional resources, including FAQs and community forums, are also at their disposal.

The integration of IBAN.com's API through iorys.com represents a significant advancement in payment processing for fintechs and online banks. By solving the challenge of IBAN verification, we enable our clients to conduct international transactions with confidence and efficiency.
