

Revolutionizing Fintech Solutions

Unlocking Innovation
through Seamless API
Integration with LPB

About iorys

iorys.com is at the forefront of IT solutions for the fintech and online banking sectors, specializing in comprehensive services that include payment hubs, front office, back office, ledgers, and compliance modules. Our mission is to simplify and enhance the operational capabilities of our clients through seamless and efficient API integrations.

> Introduction

At iorys.com, we are committed to empowering fintech companies with cutting-edge IT solutions that drive innovation and growth. Our strategic partnerships enable us to deliver seamless integrations that enhance the capabilities of fintech platforms, ultimately transforming the way financial services are delivered.

In collaboration with LPB, a leading bank in Latvia offering comprehensive financial services, we are proud to introduce a revolutionary API integration designed to empower fintechs with streamlined fund management, enhanced payment capabilities, and unprecedented growth opportunities.

> Streamlined Fund Management

With LPB's safeguarding services seamlessly integrated into fintech platforms through our APIs, managing clients' funds has never been more secure and efficient. Our solution ensures compliance with regulatory standards while providing fintechs with the flexibility and confidence to focus on their core business objectives.

By entrusting fund safeguarding to LPB, fintech companies can alleviate the burden of regulatory compliance and operational complexities, enabling them to allocate resources more strategically and accelerate their growth trajectory.

> **Enhanced Payment Capabilities**

Through our API integration with LPB, fintechs gain access to a suite of Euro payment solutions that revolutionize transactional efficiency and speed. Leveraging LPB's adherence to the SEPA scheme for instant fund transfers and Target 2 transactions, fintech platforms can offer their customers seamless Euro payment experiences that rival traditional banking services.

Our solution empowers fintechs to transcend geographical boundaries and deliver frictionless payment experiences to customers across Europe, driving customer satisfaction and loyalty while maximizing revenue potential.

> **Empowering Growth with Card Acquiring**

In addition to streamlined fund management and enhanced payment capabilities, our API integration with LPB unlocks new growth opportunities for fintechs through card acquiring services. By facilitating seamless payment card acceptance, fintech platforms can expand their market reach, attract new customers, and unlock new revenue streams.

Our solution empowers fintechs to capitalize on the widespread adoption of payment cards, positioning them for sustained growth and success in an increasingly competitive marketplace.

> Conclusion

The strategic API integration between iorys.com and LPB represents a paradigm shift in fintech solutions, offering unparalleled benefits in fund management, payment capabilities, and growth opportunities. We invite fintech companies to explore partnership opportunities with iorys.com and leverage our innovative solutions to drive their success in the rapidly evolving financial landscape.

Unlock the full potential of your fintech platform with iorys.com's API integration with LPB. Contact us today to learn more about how we can empower your growth and innovation journey.

The integration of LPB API through iorys.com represents a significant advancement in payment processing for fintechs and online banks. By solving the challenge of LPB verification, we enable our clients to conduct international transactions with confidence and efficiency.
