

Revolutionizing Fintech Solutions

Unleashing the Power
of iorys API Integration
with XE

About iorys

iorys.com is at the forefront of IT solutions for the fintech and online banking sectors, specializing in comprehensive services that include payment hubs, front office, back office, ledgers, and compliance modules. Our mission is to simplify and enhance the operational capabilities of our clients through seamless and efficient API integrations.

> Introduction

At iorys.com, we're committed to empowering fintechs with innovative IT solutions that drive growth and efficiency. As part of our ongoing efforts to enhance our service offerings, we're thrilled to announce our strategic API integration with XE.com, a leading provider of foreign exchange rate data. This partnership unlocks a wealth of opportunities for fintechs to access comprehensive FX rate information seamlessly within their platforms, revolutionizing the way they handle currency exchange.

> Seamless Integration for Enhanced Currency Exchange Solutions

Integrating iorys.com's API with XE.com's robust currency exchange data is a breeze. Fintechs can now effortlessly incorporate accurate and up-to-date exchange rates directly into their platforms, eliminating the need for manual updates or unreliable sources. With our seamless integration, fintechs can provide their users with real-time access to the most relevant FX rates, enhancing the overall user experience and ensuring transactions are conducted with precision and efficiency.

> **Empowering Decision-Making with Direct Currency Pairs**

One of the key advantages of our API integration with XE.com is the ability to access direct currency pairs. Unlike other sources that may only offer rates through a base currency like the euro, fintechs can now obtain direct rates between various currencies, enabling them to make informed decisions quickly and confidently. This feature eliminates the complexities associated with indirect currency conversions, providing fintechs with greater flexibility and agility in managing their foreign exchange needs.

> **Cost-Effective Solutions for Fintech Growth**

In addition to enhancing functionality and decision-making capabilities, our API integration with XE.com offers cost-effective solutions tailored to fintechs' needs. By leveraging our partnership, fintech startups can access comprehensive FX rate data at competitive rates, minimizing overhead costs and maximizing profitability. With customizable packages designed to scale alongside fintech growth, our integration with XE.com empowers fintechs to thrive in today's dynamic market landscape.

> Conclusion

the API integration between iorys.com and XE.com offers fintechs a seamless solution for accessing accurate FX rates, empowering them to make informed decisions and drive growth. With cost-effective packages and direct currency pair capabilities, this partnership revolutionizes currency exchange in the fintech industry. Join us in shaping the future of finance.

The integration of Xe.com API through iorys.com represents a significant advancement in payment processing for fintechs and online banks. By solving the challenge of Xe verification, we enable our clients to conduct international transactions with confidence and efficiency.
